

ECO SPA TREATMENTS

Phâro Sugaring provides you with natural, eco-friendly products and have made sugar waxing a near spa experience with our natural, luxurious New Zealand made gels. We have now added value treatments that are done after Phâro sugar waxing; these extended treatments will leave your skin nourished and rejuvenated. Choose from our range of value added treatments that best suit the need or occasion. These treatments are done in 15 or 30 min sessions depending on the needs of your clients skin and the area of the body covered.

Suggested prices

15 min treatment \$20.00

30 min treatment \$30.00

Phâro Rejuvenation Treatment

Let your client experience a light spray with the Phâro Apres Sugaring Mist which naturally and gently hydrates, cleanses, protects and tones the skin after sugaring. With Aloe Vera to soothe the skin and Witch Hazel to relieve any inflammation, the cooling mist will cleanse the pores and leave the skin cool and toned. Witch Hazel is also a great astringent herb with slight aromatic properties and this nutrient enriched product also contains the herb Arnica that is widely used to treat bruising and swelling. Arnica also has anti-inflammatory and antibiotic properties that can assist in relieving discomfort.

The Treatment:

Lightly spray the treated area then massage gently into the skin. Spend some time massaging the Apres Hydrating & Cleansing mist into the area that is being treated until the mist is absorbed into the skin. The skin will soak in the nourishment and the area that has just been sugared will be rejuvenated. The Arnica, Tea Tree and Aloe vera will soothe and nourish and protect the skin. This treatment is finished off with Cold/ Warm compresses depending whether it is summer or winter. This is a great way to complement any regular sugaring treatment. Many salons have already been using the Phâro Apres Sugaring Spray and lightly massaging the area however you can now add it to your menu and finish it off with a compress to let the client leave relaxed and rejuvenated. The Phâro Apres Sugaring Mist is available in a cooling 200ml aluminium spray bottle and 1 ltr refill bottle.

Products used:

- Phâro Manuka Honey Gel
- Phâro Apres Sugaring Hydrating and Cleansing Mist

Phâro Mask Cleansing Treatment

Argiletz French Green Clay Mask is a pure product that has the ability to help detoxify and improve the appearance of the skin. Argiletz® superfine green clay, exceptionally rich in minerals useful to the body, is a fine clay powder of about 60 microns. This mask is a special blend of green clay, neem, rose and cucumber which will cleanse and close pores after hair removal. Neem is a natural antiseptic. It soothes skin and heals eruptions like pimples and black heads. It restores the skin's natural oil balance and also stops scaling. The Rose extracts tones and revitalises the skin to make it soft and healthy. It gives a cooling and refreshing effect making the clients skin supple and youthful. Cucumber is a natural cleanser and moisturiser which cools and nourishes the skin. It removes the dead skin cells and is effective for dark circles around the eye area. The key purpose of this unique mask blend is to draw out impurities and excess oils and reduce bacterial activity on the skin.

The Treatment:

Mix this special blend with the Rose Floral Water, a distinct product resulting from the distillation of the rosa damascena petals (not just water to which drops of essential oil have been added). This is a 100% pure and natural, nonalcoholic distillate. Rose floral water has its own unique qualities directly related to the properties of Rose essential oil. It is excellent for all skin types. Apply thinly with a masque brush to assist with ease of clay based masque removal. Leave on the treatment area for 5-10 minutes then remove with a cold compress or sponge.

With a light, refreshing fragrance, the Rose water also has astringent properties that help to reduce the appearance of fine lines and wrinkles. When mixed with the Argiletz French Green Clay Mask the moisturising effects of Rose Water enhances the skin tone and smoothness. This treatment cleanses and closes the clients pores after hair removal. This treatment is strongly recommended after removal of facial, chest and back hair.

Suggested products:

- Phâro Manuka Honey Gel
- Eco Spa Collection Argiletz French Green Clay Mask mixed with Floral Rose Water

Phâro Metabolic Booster Treatment

A rich blend of vegetable oils with an environmentally friendly vegetable derived dispersant blended with Fucus vesiculosus. Known by the common name of Bladderwrack this form of kelp (seaweed) is a nourishing tonic for the skin. The rich blend of products is massaged into the treated area relieving the symptoms of tiredness, dry skin and surface cellulite. Your clients skin will feel soft and nourished and as an added bonus we have ensured that the blend is an easy wash blend so that your towels and linen will wash clean without any residue left on them. Bladderwrack, is found on the coasts of the North Sea, the western Baltic Sea, and the Atlantic and Pacific Oceans and has been used medicinally for centuries. The main use of the herb has been for the treatment of cellulite. The high iodine content of the herb stimulates thyroid function which boosts metabolism. A nourishing tonic for cellulite with tiredness and dry skin, Bladderwrack also appears to assist in the problem of lipid balance associated with obesity, and where obesity is associated with thyroid dysfunction, this herb may help to reduce excess weight.

- Phâro Marine Extracts Gel
- Eco Spa Collection Metabolic Booster Massage Oil

Natural Bio-Tan Treatment

Tan naturally with our Radiessence Instant Tanning Mousse, the next generation in tanning technology for the perfect professional tan. The Tan is Instant, Long Lasting, Fast Drying and applied with the Radiessence Microfibre Application Towel for a streak free finish. Radiessence Instant Tanning Mousse has been formulated with revolutionary plant extracts to revive the skin with and instant natural looking tan.

The Treatment:

Tanned immediately after sugaring the tan stays on for upto 9 days as the dead skin has been removed from the skin surface allowing the tan to go on evenly and last longer. The moisturisers in the tan nourish the skin at the same time. A great treatment for a special occasion or just to pamper your client.

Products used:

- Phâro Marine Extracts Gel
- Radiessence Instant Tanning Mousse applied with the Radiessence Micro Fibre Application towel
